# Goodbye! (For now)

by Breadborde (Bordementions)

Summary

Unfortunately god gives his toughest battles and worst mental illnesses to his worst gacha game fic writers

Notes

Yo how tf are you supposed to even tag smth like this like does this even count as a fic idk

Just hope it doesn't get taken down or smth that would suck

Anyways whatever yeah clocks ticking and my time finally ran out, as such I will have to trace the consequences of a LOT of poor decisions

BUT FEAR NOT! For your alpha will go down swinging 🐺 AWOOOOO

See the end of the work for more notes

Heyyyyyy what's up

Unfortunately due to a lot of circumstances in my life I am now a part of the US Military! This is being posted the night before I leave so highly doubt I'll be able to respond to any comments BUT THANKS FOR READING ANYWAYS!

Most of you already know this was coming or smth anyways so this is just a post for anyone who has come to read my fics or may not look at my socials.

This account will no longer be producing any content or responding to any comments made after tomorrow. This is because I am going to be shipped to my basic and AIT for the military. It will be nearly a year till I return but even then I cannot promise that I will return to fic writing.

As such this fic will be a statement that I am on indefinite hiatus until my return.

side note lol I am NOT a fan of this government and especially a lot of the things that they are involved in right now. I know that does not excuse my participation in their system but due to a lot of circumstances in my life I was forced to take a tuition assistance deal to maintain a relative balance in my life cause of financial issues.

as such if you choose too distance yourself or not support my content anymore with the knowledge that I work for them I completely understand.

But anyways THANK YOU THANK YOU THANK YOU for enjoying my content it was a lot of fun and I couldn't have asked for a better readerbase or all of the fantabulous fantastic fucking friends I made along my writing journey!

Thank you once again from the bottom of my heart I love you all!

Also you guys should all like totally join the discord I made, obviously I'm not in it anymore but it really fucking rocks and the people in there are really cool.
